BMT 16

ALUMINIUM CUTTING

Angular cutting application.

Suitable for cutting various materials

Aluminium, Brass, Heat sink, PVC, Plastic steel, Bakelite, Acrylic plastic, Teflon, Honeycomb board, Wood and other non-ferrous metals.

Features :

- To operate the machine, simply treadle on the foot switch, the machine will automatically perform clamping and cutting for convenient operation.
- Concealed saw blade performs upward cutting. Single or multiple workpieces can be cut simultaneously.
- While cutting, the oil mist splashes automatically for cooling and lubrication.
- Cutting feed is driven by an air/hydraulic combination cylinder for extremely stable cutting speed.
- The machine permits $\pm 0\sim 45$ degree cutting.

Unit: mm

MODEL	BMT16
CUTTING ANGLE	+45°~0~-45°
SAWBLADE SIZE	16"×1" bore
SPINDLE SPEED	3600 rpm
MOTOR	3HP
AIR PRESSURE	4~6 kgs/cm ²
TABLE AREA	720×380
TABLE HEIGHT FROM FLOOR	865
N.W./G.W.	400 kgs/500 kgs
MACHINE DIM.(L×W×H)	1000×880×1610
PACKING DIM.(L×W×H)	1120×1000×1810
